

Benzene-free Spray Paint TDS

Product Description: 7CF® Benzene-free Spray Paint is a quick-drying benzene-free thermoplastic acrylic resin aerosol paint. It is made of special acrylic resin, pigment additives and solvents free of benzene and toluene, combined with advanced production technology. Various raw materials have undergone strict inspection and control. Reduce harm to the environment and human health. It has the characteristics of flexible and simple operation, good spraying atomization and high spray rate. It has such comprehensive properties as fast-drying, plump paint film, strong hardness, powerful adhesion, bright gloss, excellent flexibility, impact resistance, etc. The color is rich and gorgeous, the decoration effect is excellent, and it has excellent protection function. This product is resistant to moisture, water and weather.

Applications: Widely used for all interior/exterior applications, for eco-friendly needs of iron & steel, plastics, metals, surface-treated wood, glass etc.

Features & Benefits:

- Benzene free - environmentally friendly
- Fast drying
- Simple operation
- Good spray atomization
- High spray rate
- High film fullness
- Excellent decorative effect
- Superior adhesion and durability

Unit Package Description:	10oz (283g)
Brand:	7CF
Appearance:	Film flat and smooth, no mechanical impurities, accord with the confirmed sample.
Drying condition:	Touch dry \leq 15 minutes, finger press dry \leq 1 hours
Recommended Thickness:	18-25 μ
Volume Solid:	15-25%
Specific Gravity:	0.90-1.15
Adhesion:	\leq 2
Hardness:	\geq HB
Gloss:	Gloss \geq 80; Matt accord with the confirmed sample
Flexibility:	\leq 1mm
Spraying rate:	\geq 98%
Shelf Life:	Three Years
