

## Carburetor Cleaner TDS

**Product Description :** 7CF® carburetor cleaner is designed to maximize carburetor performance. This product is specialized in cleaning carburetor's anti-wind door and adjustment valve, without any damage to the catalytic cracking convent or oxygen sensor. It quickly removes carburetor deposits such as pectin, char, grease gum, sludge & varnish to improve fuel system performance & enhance fuel economy. It could also solve the motor's running unstable, start difficult and reduce the off-gas pollution.

**Features & Benefits:**

- For all carburetor engines
- Leaves no residue
- Helps restore carburetor function
- Does no harm to engine sensors or emission devices
- Restores power, performance and fuel economy
- Helps reduce exhaust emissions

**Applications :** Automatic chokes, carburetor components, throttle body, crankcase breather element, exhaust gas recycling valve, general purpose for non-painted surfaces, intake parts, PCV valve etc.

**Unit Package Description:** 10 OZ. FOAM

**Brand :** 7CF

**Appearance:** Colorless liquid

**Odor:** Solvent

**Film Type:** Not applicable

**Flash Point:** Not applicable

**Boiling Point:** 40°C

**Solubility (water):** Insoluble

**Vapor density:** Not applicable

**Flammability:** Flammable

**PH:** Not applicable

**Kinematic Viscosity:** Not applicable
