

Diamond Durable Hard Wax TDS

Product Description : 7CF® Diamond Durable Hard Wax adopts a new generation of special polymer resin "natural carnauba wax" and a new high-tech formula. It can create a diamond mirror-like bright and long-lasting protective film on the car body. Diamond Hard Durable Wax provides excellent glazing, protective, waterproof, anti-fouling, anti-ultraviolet effect. one-time use of super long-lasting glazing and multiple protection. Suitable for any color car.

Applications : Widely used on the surface of automobiles, motorcycles and wooden furniture etc.

- Features & Benefits:**
- Using imported natural carnauba wax and the latest generation of special polymer resins
 - Super long-lasting glazing and protection effect
 - Glazing, waterproof, anti-fouling, anti-ultraviolet
 - Excellent anti-acid rain, anti-dust accumulation effect
 - Suitable for any color car

- DIRECTIONS:**
1. For best results, apply to a clean, cool and dry surface in the shade.
 2. If the paint surface has slight scratches or stubborn stains and rust that cannot be wiped off, you can use the 7CF color back wax to repair.
 3. Apply a small amount of product onto the applicator pad and spread a thin, even coat over entire vehicle.
 4. Remove with cotton terry cloth towel, turning to a clean portion for the final wipe when the wax film slightly dry (after 5-10 minute).

| Unit Package Description: | 11oz (300g) |
| Brand : | 7CF |
| Appearance: | White Cream |
| Odor: | Flower odour |
| PH: | Not available |
| Flammability: | Not Flammable |
| Boiling Point: | 190-250 °C |
| Melting Point: | 0-45 °C |
| Solubility (water): | Insoluble |
| Specific Gravity: | 0.85 – 0.98 |
| % Volatiles: | > 50 % |
| Flash Point: | 45-60 °C |
| Upper Explosion Limit: | 3.5% |
| Lower Explosion Limit: | 1.0% |
| Evaporation Rate: | Not available |
| Autoignition Temperature : | 300 °C |
