

# Grease spray TDS

**Product Description :** 7CF® grease spray is lithium grease with an advanced corrosion-resistant, excellent water and heat resistance for providing long lasting lubrication and protection. Ideal for metal to metal, metal to plastic, plastic to plastic lubrication. It is designed for applications requiring a long grease life.

**Applications :** Provide high quality protection for automotive, agriculture and construction tools and equipment, chains, cables, hinges, latches, machinery, bearings etc.

**Features & Benefits:**

- Superior Lubrication & Protection
- Withstands High Temperature and Pressure
- Waterproofs and Prevents Corrosion
- Easy application
- Running smoothly
- Provide long lasting lubrication and corrosion.
- Heavy duty metal lubrication.
- Temperature range is from -25 degree to 120 degree

**Unit Package Description:** 10 OZ. AEROSOL

**Brand :** 7CF

**Appearance:** Clear liquid

**Color:** Light Yellow

**Consistency:** Medium Paste

**Solvent:** Heptane

**Non Volatile%:**  $\geq$  30% by Weight

**Flash Point - °F:** -50°F

**Specific gravity:** 0.70-0.9

**Solubility in water :** Insoluble

**pH:** Not Applicable

**Specific Gravity:**  $<$  70%
