

## Hammer Finish Spray Paint TDS

**Product Description :** 7CF® Hammer Finish Spray Paint is a quick-drying alkyd aerosol paint, the paint film has uneven hammer finish effect, excellent adhesion, flexibility, impact resistance, excellent decoration effect, and good protection function.

**Applications :** It is widely used in the coating of various metals, surface-treated wood, glass, ceramics and other substrates, such as machinery, steel door, theft-proof window and door, electronic tools, medical equipment, handicrafts etc.

**Features & Benefits:**

- Provide films with hammer finish effect
- Excellent durability indoors and outdoors
- Fast drying
- Superior corrosion resistance
- Great for metal, wood, glass and more

**Unit Package Description:** 10oz (283g)

**Brand :** 7CF

**Appearance:** Film flat and smooth, no mechanical impurities, accord with the confirmed sample.

**Resin Type:** Oil Modified Alkyd

**Pigment Type:** Varies with color

**Drying condition:** Touch dry  $\leq$  30 minutes, finger press dry  $\leq$  2 hours

**Recommended Thickness:** 18-25 $\mu$

**Volume Solid:** 15-25%

**Specific Gravity:** 0.90-1.15

**Adhesion:**  $\leq$  2

**Hardness:**  $\geq$  HB

**Gloss:** Gloss  $\geq$  80; Matt accord with the confirmed sample

**Flexibility:**  $\leq$  1mm

**Spraying rate:**  $\geq$  98%

**Practical Coverage at Recommended DFT (assumes 15% material loss):** 4-6 sq.ft./can (requires two coats) (0.37-0.56 m<sup>2</sup> /can)

**Dry Heat Resistance:** 200°F (93°C)

**Flash Point:** -156°F (-104°C)

**Shelf Life:** Three Years
