Features & Benefits: Penetrates fast; Dissolves rust & corrosion; Lubricating film displaces water and prevents rust.

Unit Package Description: 10oz (283g)

Brand : 7CF

Appearance: Colorless to light yellow liquid

Odor: Vanilla Aroma

Film Type: Thin, Non-Drying

Flash Point: >45°C

Boiling Point: > 200°C

Solubility (water): Negligible

Percent Volatile: > 10%

Propellant: Hydrocarbon

Specific Gravity: 0.80–0.83

Metal Surface Tension: <40 dynes/cm

Insulation Strength: > 20 kV

Rust Resistance: up to 6 months indoors (iron and non-ferrous metals)
